### Research\_

# Extensions to Functional Anova Methodology PHD DISSERTATION (IN PROGRESS), IOWA STATE UNIVERSITY

Ames, IA

2017-present

MENTOR: PETRUŢA CARAGEA, PH.D

- Extended existing functional anova approaches by developing an algorithm that tests for interaction effects between treatments for groups of time series curves.
- Developed a method for creating novel visualizations of the functional anova tests, which provide an additional facet to understanding the significance of the tests, and allow for identification of when significant differences and interactions occur over time.

# Functional Anova Approach to Detect Changes in Soil Moisture and Temperature Master's Creative Component, Iowa State University

Ames, IA 2016-17

MENTOR: PETRUȚA CARAGEA, PH.D

- Utilized an asymptotic functional anova approach to study treatment effects of heating and snow removal on soil moisture and temperature time series data. Approach involved smoothing data using Fourier and b-spline basis, and using a parametric bootstrap procedure to test equality of mean curves.
- Successfully defended Master's Creative Component on May 10, 2017.

Research Fellow

DPA/CDER/US FOOD AND DRUG ADMINISTRATION.

Summer 2014

MENTORS: JASON RODRIGUEZ, Ph.D; CONNIE GRYNIEWICZ-RUZICKA, Ph.D

- Developed an algorithm in MATLAB to transfer laboratory methods to field instruments.
- Developed rapid screening methods to identify adulteration of pharmaceutical materials on bench top and portable Ion Mobility Spectrometry instruments.
- Research culminated in a formal talk to Department of Pharmaceutical Analysis, CDER/FDA.

Research Fellow

DPA/CDER/US FOOD AND DRUG ADMINISTRATION.

Summer 2013

MENTORS: JASON RODRIGUEZ, Ph.D; HONGPING YE, Ph.D

- Utilized statistical methods for disaccharide analysis to test for ruminant contamination in heparin.
- Developed Raman and near Infrared spectral libraries for screening of pharmaceutical materials.
- Research culminated in formal talk to Department of Pharmaceutical Analysis, CDER/FDA, and poster presentation at Center for Drug Evaluation and Research Science Day in White Oak, MD.
